OUR TERMS OF SALE

CONDITIONS

The plants named are offered at the rates quoted, provided that not less than ten of each variety are taken at the hundred rate, not less than 250 at the thousand rate, nor less than three at the dozen rate.

TERMS

* Three per cent. discount for cash with order; two per cent. discount on all invoices paid within ten days. All bills subject to draft in thirty to sixty days, unless otherwise agreed upon.

SUBSTITUTION

Under no circumstances will we substitute unless privileged to do so by purchaser. Customers will save time to give second choice of any variety should we be out of their first choice.

PACKING FOR LONG DISTANCE

To far-off points many customers have the soil removed from the roots of Roses and then wrapped in damp moss, thereby saving express charges. Customers who desire their Roses packed this way will so state when they order. We will not be responsible for loss or damage in transit when so packed. **We make no charge for packing.**

UNKNOWN CORRESPONDENTS

Orders from unknown correspondents must be accompanied by the cash, or satisfactory bank or business reference. Remember, it takes time to write your reference and get their reply. If ordered sent C. O. D., one-third the value of the stock called for must be remitted with the order. We make no deviation from this rule, as at the very low rate offered we cannot afford to run any risk. This rule will be strictly adhered to.

COMPLAINTS

No complaints will be entertained unless made immediately on receipt of goods.

REMITTANCE

Should be made either in the form of Money Order, Bank draft, Express Order or Registered Letter. Remittances in any other way are entirely at the sender's risk. Personal checks are not accepted from unknown correspondents.

SHIPPING FACILITIES

Having the rival express companies—Adams, American, United States and Wells Fargo—these companies charge one through tariff rate over their own lines and have working arrangements with the National, Southern, Great Northern and Northern Pacific Express Companies, thus insuring you the lowest possible one through rate without the usual custom of charging two or more local rates where goods are handled by two or more express companies; thus we can reach almost any point in the United States by express at one rate, insuring our customers the lowest express charges.

PLANTS BY EXPRESS

All goods are sent by express unless otherwise ordered.

PLANTS, ROSES, ETC., BY FREIGHT.

Plants, Roses, etc., shipped by freight are at purchaser's risk. We will not be responsible for goods so shipped.

PLANTS PREPAID BY EXPRESS

The Good & Reese Company's Roses

Are justly celebrated from one end of this continent to the other, even extending to all foreign countries. There is a sense of satisfaction when one can truthfully say, "I have the finest business in Roses of anyone in the world." The great question is, How have you done it? The answer is by supplying Roses that grow and bloom, that are true to name and at as low a cost as good stock true to name can be grown for. Some Roses are dear at any price, all mixed up, and you don't know what you've got. Not so with G. & R. Roses. Every plant is true. We have system to our business and our Rose experts know the how—no guesswork about it. Our Rose trade uses each year some five million plants. Easy to say, but not so easy to grasp. We know with our customers that no Roses are produced that will equal G. & R. quality stock. We thank one and all for past favors. Our aim will be to please you even better in the future than in the past.

Why Our Rose Trade Is By
Far The Largest In
The World

THERE IS A REASON

Because Our
ROSES

Grow and Bloom

Under our method of propagation—which is a natural one—growing during the growing season and resting during the non-growing season, we produce a Rose that can have no superior. This is evidenced by our largely increasing trade. Once a customer always one. Sometimes a customer of ours will be led off by cheaper prices, but they invariably after the trial come back to us, our prices being as low as first class Roses true to name and carefully packed can be produced and sold for. Cheaper prices than we quote always mean cheaper Roses. We figure a profit on everything we sell, and we do not care to sell unless we can make a decent profit to which every good business man is entitled. The best and most expert buyers in the world never make a contract with the lowest bidder, because on the average they know it doesn't pay. We invite correspondence on large orders. Mail us your list of needs, giving the varieties and quantities of each you will require, and we will give you the very best prices at which first-class stock can be sold.

"Not How Cheap==But How Good"

THE G. & R. QUALITY ROSES

Don't get your headlight behind—light up ahead and keep going. If you hold a penny close to your eye, of course you can't see a dollar behind it. Save a penny and lose a dollar? That's what some buyers do who insist upon the cheapest they can get in Roses. It's false economy. It is the net profit that counts, and not so much the first cost; therefore buy the best you can and insist upon getting it. Did you ever try our first propagating of Roses? A great big difference over the second propagation. When you plant them in the field you can use your cultivator at once without fearing to cover them up. Quite a contrast to the measly little things that you can buy for a song and can't hardly see them in the row after planting, and what's worse don't know what varieties you have. Probably you could pick out a rainbow collection from every sort planted. Write for prices on Roses—Good Roses, the kind that please.

ROSE NOVELTIES FOR 1912

And Some of the Newer Roses of Recent Introduction and Also Some that are Scarce

HE mistake made by many growers of Roses is their failing to test the new Roses. This is obvious from the fact that there is no other department of floriculture in which there is more effort being put forward both in time and money, than there is along the line of the improvement of the Rose. And this is an honest effort, not such an one as many affirm is being carried on, the simply naming of a Rose and selling it at a high price without regard to its merits. Suppose the case that all Rose growers would look at it from that standpoint and refuse to buy new Roses because the price asked seemed high. This is in part what we would have missed. In the H. P. class we would be content with Paul Neyron, John Hopper and General Jacqueminot and have lacked the enjoyment of such grand late arrivals as Conrad Ferdinand Meyer, and of Frau Karl Druschki and J. B. Clark. In the Hybrid Tea class to have missed the great beauty of Etoile de France and of Chateau Des Clos Vougeat and Madame Segond Weber would have really been a Rose tragedy. And then in the Tea class, who dare say that he is not a better man to have seen the charm of a Friedrichsruh; to have felt the inspiration of a Wm. R. Smith, and to have received the benediction from a Helen Good. These are only a few of the really good things recently introduced, and by all means, both for your own real pleasure and for the replenishment of your purse, plant new Roses. Some may perchance disappoint you, as all may not do well in a given location, but if you get one variety out of ten that will thrive with you, you should feel well repaid, as your outlay with a modest purchase for a trial or test purpose will not embarrass you financially. We test all of the new Roses by an actual test in the garden, keeping data on them covering every point. In other words, we know our Roses.

HYBRID TEA ROSES==Newer Varieties

ANDRE GAMON (Pernet Ducher, 1909).—A very vigorous grower of erect, branching habit; fine bronzy foliage, with long finely shaped buds; the flowers are large, full and globular, carried well above the foliage upon rigid and strong stems. Color deep rose and carmine. Edges of petals carmine-lake. As a garden Rose this will become popular on account of its distinct soft color and its remarkably free flowering qualities and hardiness. 2½-inch pots, 75 cents per dozen; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

BEATRICE (Wm. Paul, 1909).—Deep rich pink, shaded with vermilion when opening, passing to flesh color when fully developed, flowers produced on long erect stems. 2½-inch pots, 75 cents per dozen; \$5.50 per hundred. 4-inch pots, \$2.50 per dozen; \$20.00 per hundred.

CHATEAU DES CLOS VOUGEAT (Pernet Ducher, 1908.) You have all been looking for the black Rose and here it is. The most wonderful color and texture ever seen in a Rose; looks as if cut out of heavy velvet with a color shading from deepest velvety maroon-red to blackish-crimson. We are sure it will become one of the most popular of garden Roses, quite in a class by itself, blooming continuously in crops closely following one another. It is of fine shape, good size and the richest colored of all Roses, being fifty per cent. darker than Prince Camille de Rohan and Jubilee; quite fragrant. With us the foliage of this Rose is absolutely resistant to black spot and mildew; in a class by itself for this reason alone. Keep your eye on this Rose, as it is a wonder; named after a vintage of famous old French wine. 2½-inch pots, \$1.50 per dozen; \$10.00 per hundred. 4-inch pots, \$2.50 per dozen; \$20.00 per hundred.

COLONEL LECLERC (Pernet Ducher, 1909).—An extremely vigorous grower of erect, finely branching and profuse habit; fine buds borne singly, flowers large and finely formed; color a lovely cherry-red. A seedling from Testout. 2½-inch pots, 75 cents per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen.

CROWN PRINCESS CECILE (Schmidt, 1908).—Delicate silvery-pink; long buds opening to large flowers carried on stiff stems. A free and continuous bloomer. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred.

DOROTHY PAGE ROBERTS (A. Dickson, 1907).—Coppery-pink suffused apricot-yellow, petals very large; a very unique Rose possessing remarkably beautiful shades of color. An ideal garden Rose of wonderful charm. Gold medal N. R. S. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen.

ENTENTE CORDIALE (Pernet Ducher, 1909).—A charmingly beautiful Rose of magnificent size and form; bud long and pointed, on long stiff stems; flowers large, globular and full; color creamy-white with sulphur-yellow center. From Chatenay it has inherited wonderful vigor and floriferousness. 2½-inch pots, \$1.00 per dozen; \$7.00 per hundred. 4-inch pots, \$2.00 per dozen.

FLORENCE EDITH COULTHWAITE (A. Dickson, 1908).—An exquisitely beautiful bedding variety that can be classed as a substantial "fancy;" the blooms are large and full, of perfectly imbricated form, the edges of the petals beautifully ruffled. Color deep cream stippled with bright rose on the inside petals and reflected on the back, thus creating an indescribable delicate orange and peach glow; quite distinct. One of the best. 2½-inch pots, 75 cents per dozen; \$5.00 per hundred. 4-inch pots, \$2.00 per dozen, \$15.00 per hundred.

FRAU GEHEIMRAT DR. STAUB (Lambert, 1908).—Deep brilliant pure red without shading; large, full, of fine form; sweetly perfumed. A good Rose. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen.

F. R. PATZER (Alex. Dickson, 1909).—A most beautiful and distinct Rose of very free flowering character. The blooms are produced with great freedom on stiff stems, and are of large size and substance. The color is creamy-buff, back of petals delicate warm pink. As the petals reflex the color becomes light orange-pink, forming a most charming combination. Valuable for garden culture. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.50 per dozen; \$15.00 per hundred.

GEORGE C. WAUD (Alex. Dickson, 1908).—Orange-vermilion, remarkably distinct and beautiful; large, full, well formed, flowers freely; highly tea scented. One of the best. Gold medal N. R. S. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

HECTOR MACKENZIE (Guillot, 1908).—Deep pink changing to silvery-crimson. Flowers large and full, of perfect globular form, both free and fragrant, strong and vigorous and very free branching. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

HELENE WATTINE (Souper and Notting, 1910).—White with lemon-yellow center, very double and of the largest size, opening as flat as a plate; a vigorous grower and a very promising bedder. Has the beautiful form of Malmaison. 2½-inch pots, \$1.75 per dozen.

HILDA (Meyers and Santman, 1911).—This is a sport from My Maryland, enhancing that variety by being much darker in color. A superb Rose. Claimed to be a fine forcer. 2½-inch pots, \$2.00 per dozen; \$12.00 per hundred. 4-inch pots, \$5.00 per dozen.

JEAN NOTE (Pernet Ducher, 1908).—Chrome-yellow center, deepening to reddish-orange; edges of petals creamy-yellow, large and full; extremely beautiful. 2½-inch pots, 75 cents per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

JONKHEER J. L. MOCK (Leenders, 1910).—This grand Rose is the strongest growing in the Hybrid Tea class. The blooms, which are produced with the greatest freedom, are carried on stiff and erect stems, and are of the largest size, of perfect formation and highly perfumed. Color clear imperial-pink; a glorious flower. Awarded two gold medals, one silver medal and five first prizes in Europe. We can confidently recommend this sterling novelty as a most valuable addition. 2½-inch pots, \$2.00 per dozen; \$12.00 per hundred.

KAISER WILHELM II (Welter, 1910).—Growth vigorous and upright, flowers large and very full, buds elongated, always opening well; color the richest shade of velvety-crimson, shaded black. Excellent garden Rose. 2½-inch pots, \$4.00 per dozen.

LADY ALICE STANLEY (McGreedy, 1909).—The blooms are very large, very full and of great substance. The petals are shell shaped, forming a perfect flower. The color on outside of petals is deep coral-rose, inside delicate flesh flushed deeper pink. A remarkably attractive and pleasing combination of coloring and quite distinct in every way; every shoot is crowned with a flower bud. A grand garden Rose. Awarded the gold medal of the N. R. S. 2½-inch pots, \$1.50 per dozen; \$12.00 per hundred. 4-inch pots, \$3.00 per dozen.

HYBRID TEA ROSES===Newer Varieties===Continued

LADY URSULA (Alex. Dickson, 1908).—Color a most beautiful shade of flesh-pink, of great substance and good form; petals large, circular and delicately perfumed. A grand grower, producing its round, full blooms in wonderful profusion. Keep you eye on this lady, because she's going to crowd somebody out of the line. 2½-inch pots, 60 cents per dozen; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

MADAME LEON SIMON (Lambert, 1910).—Growth vigorous and upright; flower buds long and pointed. Color dark rose with yellow center, reverse of petals carmine; very floriferous. Superb. 2½-inch pots, \$2.50 per dozen.

MADAME MAURICE DE LUZE (Pernet Ducher, 1907).—Deep rose-pink with cochineal-carmine center; very large cup-shaped flowers carried erect. Extra fine. 2-inch pots, 75 cents per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen.

MADAME MINA BARBANSON (Soupert and Notting, 1901).—Large, full, silvery-pink; free bloomer; very fragrant. 2½-inch pots, 75 cents per dozen.

MADAME P. EULER (Guillot, 1908).—Vermilion-pink changing to silvery-pink; very large, very full and possessing great lasting properties, perfect form; fragrant. Awarded first prize and gold medal at Clermont. 2½-inch pots, 60 cents per dozen; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

MADAME RAVARY (Pernet Ducher, 1899).—Not a new Rose, but not largely disseminated in this country. In growth and habit it is much like Madame Caroline Testout, and will always command a good price, being difficult to propagate. Long pointed buds of beautiful golden-yellow, opening to large, full orange-yellow flowers; very free flowering. Superb. 2½-inch pots, \$1.25 per dozen; \$10.00 per hundred.

MAYFLOWER (Hill, 1910).—A strong growing free flowering Hybrid Tea. The bud is long and pointed and opens into a flower of unusual beauty. The back of the petal is clear and bright pink, the upper surface peach and apricot. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen.

MADAME SEGOND WEBER (Soupert and Notting, 1908).—One of the grandest novelties of recent years; everybody is talking about it and the more one knows of this wonderful Rose the more they will talk about it, and what is of real value, every bit of talk about Mme. Segond Weber is in praise of her. Rosy-salmon or flesh-pink in color, of the general type and color of "My Maryland." The bud is long and pointed, opening into enormous blooms which deepen its color until fully expanded, when it is as impressive as an "American Beauty." The texture of the Rose is very thick and heavy and the form of the petals peculiarly beautiful. A great grand garden Rose; awarded two gold medals. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

MADAME VALERE BEAUMEZ (Schwartz, 1908).—Cream, yellow and orange are the colors in this queenly Rose. All the tints exquisitely beautiful, form very full and nicely rounded; a strong grower. We feel sure that this Rose will rank in the dozen best bedders. "Standard" in all necessary qualities, "fancy" in its coloring. 2½-inch pots, \$2.00 per dozen.

MARY, COUNTESS OF ILCHESTER (Alex. Dickson, 1909).—Warm crimson-carmine flowers of great size with large smooth, circular petals, upright growth, deliciously scented. A variety of much merit and distinction. 2½-inch pots, 75 cents per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

MRS. AARON WARD (Pernet Ducher, 1907).—This Rose is a real joy to the grower and absolutely distinct. One of the most delightful Roses of recent years in a color that catches the eye at once. Coppery-orange in the open bud, golden-orange when partly developed, pinkish-fawn of lovely shade when fully open, when it looks like a full fluffy-silk rosette. No wonder everybody that sees it falls in love with it; one of the most beautiful Roses in existence. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$3.00 per dozen; \$20.00 per hundred.

MISS CYNTHIA FORDE (Hugh Dickson, 1909).—This Rose possesses in a superlative degree the essential points of an ideal garden Rose, viz., size, form, brightness, vigor and habit. In color it is a deep brilliant rose-pink, very large, perfectly formed and very full. It is sweetly perfumed and lasts a long time in good condition. Gold medal N. R. S. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen.

Madame Segond Weber.

MRS. ARTHUR ROBERT WADDELL (Pernet Ducher, 1908).—Rosy-scarlet buds opening reddish-salmon, reverse of petals rosy-scarlet; semi-double flowers. A good decorative variety. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Lady Ursula.

HYBRID TEA ROSES===Newer Varieties===Continued

MRS. DAVID JARDINE (Alex. Dickson, 1908).—Delightful shade of bright rosy-pink, shading in the outer petals to salmon-pink; large, perfect form; very highly perfumed. A grand Rose in every way. Superb. Unquestionably the finest all around general purpose Rose. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

MRS. EDWARD J. HOLLAND (McGredy, 1909).—Of the "Kaiserin" type of Rose. The color is a beautiful deep salmon-rose shaded lighter towards the edges; perfect in both shape and form, with an unusually high pointed center. The petals are of great substance and beautifully arranged, forming a model flower of exquisite beauty. Because of the marvelous freedom with which it produces blooms throughout the whole season it will prove one of the finest and most striking garden Roses yet raised. Awarded gold medal N. R. S. 2½-inch pots, \$5.00 per doz.

MRS. FRED STRAKER (Alex. Dickson, 1910).—The blooms are produced in most extraordinary profusion throughout the entire season. The color of the young flower is orange-crimson; as the bloom develops it becomes silvery-fawn on front of its petals and delicate orange-pink on the back. Its long and elegant buds come with a perfectly spiral finish which so closely blends or co-mingles its warm and charming colors as to give it a chatoyant (play of colors) all its own; deliciously fragrant. It is not too much to say "Masterpiece." 2½-in. pots, \$5.00 per doz.

MRS. STEWART CLARK (Hugh Dickson, 1907).—Color varying from bright cerise-pink to brilliant rose or cherry-pink, with distinct zone of white at the base of each petal. Flowers of immense size and great substance. A grand Rose of delicious perfume. Gold medal N. R. S. 2½-inch pots, \$5.00 per dozen.

MRS. WAKEFIELD CHRISTIE MILLER (McGredy, 1909).—Color inside of petals soft pearly-blush shaded salmon, outside of petals clear vermillion-rose, a marvelous and delightful scheme of coloring which makes it quite the most remarkable variety in its class yet raised; of enormous size, it is bound to become a famous garden Rose. 2½-inch pots, \$4.00 per dozen.

MY MARYLAND (Cook, 1909).—An American Rose that has jumped into popular favor at once, sweeping the decks clean of both Europe and America. Color glowing, intense pink; large, full and of fine form. The freest Rose in growth and bloom that we know. 2½-inch pots, 75 cents per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

OLIVIA (Hill, 1907).—The ideal red bedding Rose; was always just a little ways ahead—never quite reached. Such varieties as Meteor, Helen Gould, General McArthur, Gruss an Teplitz, Etoile de France each lacked something to make them ideal. Rhea Reid came nearer the mark in some localities, but now comes Olivia, coming under the wire first an easy winner. It has more petals in it than General McArthur and is a shade lighter in color than Rhea Reid, but has them both backed off of the boards when it comes to free blooming. A superb Rose. 2½-inch pots, 60 cents per dozen; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Mrs. David Jardine.

PEERLESS (Lippiatt, 1907).—Almost pure white with pale flesh center; large, full, well formed; very floriferous. 2½-inch pots, 75 cents per dozen; \$5.00 per hundred. 4-inch pots, \$2.00 per dozen.

PRESIDENT TAFT—This Rose was raised in Cincinnati, the home of President Taft, and let us say right here while some of you may not admire the president himself, you will one and all admire the Rose given his name. It is without question the most remarkable of all pink Roses. It has a shining, intense, deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant, and in a class by itself as to color. Our Mr. Frank Good, who is probably familiar with more Roses than any man in America, says: "Talk all you want to about the Rose President Taft, and then you will not say enough." Do not confound this Rose with Leuchtfeuer, which some have attempted to rename President Taft. 2½-inch pots, 60 cents per dozen; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

PRINCE ENGLEBERT CHARLES D'ARENBERG (Souper and Notting, 1910).—Brilliant fiery scarlet shaded maroon, very large and massive, of perfect form; vigorous in growth. A decidedly good Rose. 2½-inch pots, \$3.00 per dozen.

QUEEN BEATRICE (Kramer, 1907).—One of the very finest bright pink Roses, the color being very clear, very much the shade of Mrs. Robt. Garrett. Buds and flowers are of fine form, very free in bloom. A grand Rose. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$2.00 per dozen.

RADIANCE (Henderson, 1909).—A brilliant rosy-carmine, displaying beautiful rich and opaline-pink tints in the open flower. The form is fine, largest size and full, with cupped petals. It blooms constantly and is delightfully fragrant. Superb. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

RHEA REID (Hill, 1908).—This is the new red forcing Rose; flower large and double, very free blooming and exquisitely fragrant, rich dark velvety-red; a good red garden Rose. The flowers are double, of fine size, while the color is all that is to be desired. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

ROSE QUEEN (Hill, 1911).—This new forcing Rose has the startling shade of pink found in a perfect Testout, with yellow standard at the base of the petals, which is a guarantee that the flower will never "blue" with age, and that it will not fade in bright sunlight. The bud is very long, slender and pointed, and opening shows a heart glowing with color. Rose Queen won the prize at the Chicago show, 1910, as the best undisseminated seedling. 2½-inch pots, \$2.50 per dozen; \$15.00 per hundred. 4-inch pots, \$5.00 per dozen.

President Taft.

HYBRID TEA ROSES===Newer Varieties===Concluded.

SENATEUR MASCURAND—(Pernet Ducher, 1909.)—A fine vigorous grower of erect, branching habit. Flowers large, full and globular. Color deep orange-yellow, lighter on edge of petals. Extremely free. A good garden Rose. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$3.00 per doz.

A most charming garden Rose of undoubted merit. 2½-inch pots, \$4.00 per dozen.

WILLIAM NOTTING (Souppert and Notting, 1904.)—This Rose was first sent out in this country under the name of Indiana. By some mishap it has been overlooked in the shuffle. WHITE KILLARNEY (Waban Rose Co., 1909.)—A sport from Killarney. Grand in every way. The white forcing Rose of the century. Superior to its parent in every particular. Words cannot describe its imposing grandeur. This is the greatest forcing Rose of any color or class. Benches of it during the winter give the appearance of a bank of snow. It is pure white in color, long in bud, of fine form; in fact, it is the one Rose par excellence. Planted in the garden it comes with a delicate pink tinge that if anything adds to its beauty. A great acquisition and a really wonderful Rose. 2½-inch pots, 75c per doz.; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen; \$15 per hundred.

The color is rich deep citron-yellow which intensifies as the blooms expand; large, full and of perfect form with high pointed center; the petals charmingly reflex. Deliciously fragrant. (Marechal Niel perfume.) Superb in every respect. 2½-inch pots, \$5.00 per dozen.

Polyantha or Baby Rambler Roses Newer Varieties

ORLEANS ROSE (Levassasseur, 1910).—The showiest and prettiest of all the Baby Ramblers. This charming and dainty Rose is of beautiful rounded habit and is a huge bouquet of deep cerise or Geranium-pink with distinct showy center of pure white; florets not crowded but of beautiful arrangement, making as a whole a charming combination that cannot be beaten. The color is irresistible. The plant grows like a weed and the flowers are nearly "immortelle" in their lasting qualities. We believe that they will outlast almost any other Rose in existence with their stiff paper-like texture. This pretty Rose has taken Europe by storm and will make a sensation as soon as known in this country. Awarded gold medal. 2½-inch pots, \$1.00 per dozen; \$6.00 per 100.

Hardy Climbing Roses, Newer Varieties===Concluded

LYON RAMBLER (Dubrieul, 1909.)

—Many claim that this Rose will make Dorothy Perkins step some to keep up with the procession of Pink Ramblers. It has a very vigorous climbing habit, flowers abundantly and lasting a long time. The trusses, which are immense, contain from thirty to fifty flowers. Color bright vivid pink, shaded carmine, a wonderfully attractive color. Received silver medal at Lyons show. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$2.00 per dozen.

TAUSENDSCHOEN or THOUSAND BEAUTIES (Schwartz, 1906.)—A

Climbing Rose that comes to us from Germany. The flowers upon first opening are the most delicate shade of pink ever seen in a Rose, might be described as a white delicately flushed pink changing to rosy-carmine. It gets its name from its many flowers and the variation in coloring; beautiful; will become as famous as Crim-son Rambler or Dorothy Perkins. We wrote the above a year ago, and now we can add that this Rose is sweeping the country like a prairie fire. You can word paint all you want to and then you will have left something unsaid. Simply a wonder. 2½-inch pots, 50 cents per dozen; \$3.50 per hundred. 4-inch pots, \$1.50 per dozen; \$15.00 per hundred.

VEILCHENBLAU, The Blue Rose (Schmidt, 1909.)—The most wonder-

ful Rose of the century for the reason that it marks a decided advance in the color of the Rose hitherto only dreamed of. Veilchenblau or Violet Blue is the proper name, but no doubt it will be known in America as the Blue Rose. This Rose is going to have a larger sale by far than Crimson Rambler. Have we seen it flower? Well, we guess yes, and our word for it if you want something to cause you to stop and take notice, the Blue Rose will fill the bill. At a distance of fifty or a hundred feet a bush of the Blue Rose in full bloom will startle you. When such firms as Ellwanger and Barry, of America, and Alex. Dickson and Sons, of Ireland, give this Rose unstinted praise, it's about time for the plodding nurseryman to stop, look and listen. A seedling from Crimson Rambler, semi-double flowers larger than that variety, produced in large trusses. This Rose first opens pink, but quickly changes to violet-blue. The introducer describes it as being reddish-lilac changing to amethyst and steel blue. Very distinct and extremely pleasing. A wonder. Going to sell? Yes, everybody will want and will demand the Blue Rose. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$1.50 per dozen; \$10.00 per hundred.

WHITE DOROTHY PERKINS (B. R. Cant, 1908.)—It has been the cry of nurserymen for years for a white climber that would rank up with Crimson Rambler, and now we have the pleasure of offering this White Dorothy Perkins

Tausendschoen or Thousand Beauties.

that in every way is the equal, if not superior, to Crimson Rambler as a red, and Dorothy Perkins as a pink. This Rose has no rival as a white climber. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred; 4-inch pots, \$2.50 per dozen; \$15.00 per hundred.

HYBRID TEA ROSES—Standard Varieties

This is a class of recent creation, embodying the delicate shades and peculiar fragrance possessed by the Tea Roses combined with the vigor and more pronounced pink and crimson shades of color previously confined to the Hybrid Perpetual class. In our opinion the Hybrid Teas will supersede all others because of their superior constitution and marvelously free flowering qualities. In a sentence it may be said they combine all the better traits of the two classes from which they sprung, altogether a great advantage. Almost all are highly perfumed, an attribute absolutely essential to a perfect Rose.

ETOILE DE FRANCE (Pernet Ducher, 1905.)—The gold medal Rose, of France, and claimed by the raiser, J. Pernet Ducher, of Lyons, France, to be the finest Rose he has ever sent out. We believe with him that it has no superior. The flowers are very large and borne on good, long, stiff stems; color a lovely shade of clear, red-crimson velvet; very fragrant and keeps well. In England, where it has been tried extensively during the past season, it has caused quite a sensation. Our opinion is that it will become as much of a favorite as La France. GAINSBOROUGH (Good & Reese, 1903.)—We are proud of the fact that we introduced this Rose. Its delicate coloring is difficult to describe, being delicately tinged fawn, almost white and lustrous as satin. When in full bloom it resembles a large, fine, white fluffy Peony, but without a suggestion of stiffness, often measuring eight to nine inches in diameter. An enthusiastic admirer from the state of Oregon describes it as a Rose reminding him of a beautiful girl wearing a light colored Gainsborough hat, ornamented with white ostrich plumes, hence the suggestion of its name. One of the most beautiful of light colored Roses. Don't forget this Rose. It will make a place for itself among the leaders. Summer Bedding Roses for Cut Flowers

MR. FLORIST, YOU HAVE NO EXCUSE TO BE WITHOUT ROSES DURING ANY DAY OF THE SUMMER AND PLENTY OF THEM.

THE PLANTING OF ROSES in the garden for summer cut flowers has become in recent years a large business. We sell as many as twenty thousand plants to one concern for this purpose. The best proof that it is profitable is the fact that the firms who first made the trial are increasing their plantings, while many others are going into it. You say, "How shall we winter them? We reply to let your wheels revolve fast enough to realize that you can buy Roses as cheaply as you can buy Salvias and Geraniums, and should you fail to winter the Roses, no serious loss is sustained. Another thing, the Tea and Hybrid Tea Roses will produce more blooms twice over than any Geranium. No florist has an excuse for being out of Roses throughout the entire summer season, and your blooms will be finer than any ever cut under glass.

HOW TO OBTAIN THESE RESULTS

Select land, if possible, with a clay subsoil and a clayey loam top soil. Roses always do best where their roots can strike down and take hold of clay. Give a good coat of manure and plow deep. Always plant G. & R. own root two-and-one-half-inch pot plants. Time of planting should be governed by the locality (in our vicinity May 1st to 10th). Should the spring be early the planting may be done April 15th. Early planting, while the weather is cool, assures an active root action, and the plants are thus ready to work when the hot weather comes on. Cultivation should be intensive; that is, run the cultivator through them at least three or four times in two weeks, right after planting, and then use the hoe to loosen up the soil between the plants in the row. Now comes the important part. Mulch with straw manure fresh from the stable to a depth of 1½ to 2 inches, enough to thoroughly cover the ground, placing it right up around the plant. After this all you need to do is to pull what few weeds show (and but few do show through this mulch). This mulch will provide the necessary moisture and also do away with the cultivation. Never allow the flowers to open on the plants, but cut in the bud state, the stems placed in water and taken inside, and my! what Roses you will see! Nothing grows under glass to compare with them. Only certain varieties of Roses are suitable—those that are good growers, producing fine buds and flowers on good stems.

IMPORTANT—The list we name, so far as we know, will do well in all parts of the country. The florist in Ohio or Wisconsin should have glorious Roses to cut all summer. You can experiment with a few hundred plants. There may be other varieties that in certain localities will fill the bill as a profitable summer cut flower. We will consider it a favor if our customers will write us saying what are the best for this purpose in their different localities. The following varieties of Roses we have found best for summer cut flowers in Ohio. Each and every Rose is a free bloomer, and is a gem of the first water.

DAHLIAS FOR CUT FLOWERS

We grew about ten acres of Dahlias the past season. This flower is being grown by the acre by florists for cut flowers. The bulbs we offer are divided field roots. Price, 60 cents per dozen; \$4.50 per hundred; \$40.00 per thousand.

CACTUS DAHLIAS

So-called from their resemblance to Cactus flowers. They are characterized by long, narrow, pointed, tubular and twisted petals of graded lengths, giving the flowers a striking and attractive appearance. Grand for cut flowers.

ALFRED MORGAN—Color deep, rich, purplish-crimson; very large.

COUNTRESS OF LONSDALE—For perfection of bloom, erectness of stem, abundance of flower, this variety has never yet been equaled. On several of the plants we have counted over 150 perfect blooms on one plant. Is there any other garden flower that can equal it? The color is a rich salmon-pink tinted apricot. The one best Dahlia.

EARL OF PEMBROKE—Flowers large, of fine form. Color bright purple with a royal caste. A most beautiful flower.

EVA—Purest snow-white, with good stems. Said by some to be the finest white variety yet raised.

FLORADORA—Deep, dark, rich wine-crimson, splendid shaped flowers on long upright wiry stems. Habit the ideal of perfection.

THE KING OF FLOWERS

HARDY EVERYWHERE

Herbaceous Peonies

The demand for fine Peonies is growing with each year, and every florist should have at least a small plantation of them from which to supply his trade, both for the plants and for cutting the bloom. One can make no more profitable investment. The bloom if cut in the bud state lasts for a week or more. We offer as choice a list of Peonies as you will find in this country. To the collector, the varieties named will be attractive. To those who wish to increase their stock of desirable sorts, this list will appeal, and to the nurserymen and dealers who buy to sell, there will be found a list of choice varieties at moderate cost. We started some years ago to grow Peonies, and we believe that no firm in this country has such a large planting of valuable sorts as we. Our endeavor is always to lead and not follow in any branch of the floral business we undertake. We will make Good & Reese Peonies as much of a household word as G. & R. Roses, so do not forget us when in need of Peonies. We can supply them (referring to the price) from the aristocrat to the plebeian. We guarantee our Peonies true to name. The plants we offer are divisions (from plants two to three years old), with two to five or more eyes. We always give value. We supply six at dozen, 25 at hundred, and 250 at thousand rates. For any varieties not listed write us for prices.

Mr. Harrison says: "This flower has reached the ultimate beyond which we cannot go." It combines enormous size with wondrous beauty, often seven to eight inches in diameter; color snow-white, flecked with an occasional clear purple spot on edge of center petals; in addition, it is very fragrant; a glorious flower, impossible to describe; magnificent. \$2.00 per dozen; \$15.00 per hundred.

There is no bloom whose unfoldings you watch with greater interest. It finally opens a solid ball of softest blush, with streaks of carmine. There it sits in all its beauty, a glorious flower in a chalice of veined marble, emitting a delightful perfume." This Peony belongs distinctly in a class by itself. \$2.00 per dozen; \$15.00 per hundred.

Festiva Maxima in Full Bloom.

NOVELTIES IN PEONIES—Concluded

FELIX CROUSSE—All Peony enthusiasts are familiar with the fact that it is difficult to get a red Peony that is a self color—that is, a full, rich, even shade of red without being suffused with a shade of another color. Felix Crousse fills the bill. A rich, even, brilliant ruby-red, exceptionally fiery, bright and effective; very large, full bell-shaped bloom. We place this in the front rank of all red Peonies—nothing like it in color. We have the largest stock of this variety in the world. \$3.50 per dozen; \$25.00 per hundred.

FLORAL TREASURE—Very large and full; clear pink, shading to lighter at center; a splendid hemisphere of fragrance; long, strong stems to uphold the big bloom, sometimes six inches across; very vigorous and floriferous. \$4.00 per dozen; \$25.00 per hundred.

GIGANTEA—(Lamartine.) This is one of the rarest and most sought after in cultivation. Ward calls it the finest of all Peonies for cut-flower purposes. It is one of the earliest to bloom, produces an enormous flower, six to seven inches in diameter, on long stems; deliciously fragrant; fully as effective for decorative purposes as the finest Chrysanthemum. Gigantea is a ravishingly beautiful wild flower. \$1.00 each; \$10.00 per dozen; \$75.00 per hundred.

L'INDISPENSABLE—Very large cup-shaped bloom, finishing with a high-built center; delicate blush, almost white; very striking. 50 cents each; \$3.50 per dozen; \$25.00 per hundred.

MADAME CROUSSE—Immense size, forming a huge pyramid of delicate baby-pink, changing to pure white; ethereally beautiful. \$3.50 per dozen; \$25.00 per hundred.

Without question the grandest of all white Peonies. You positively cannot afford to leave this variety out of your collection. It is a wonder. We have a fine stock. \$3.50 per dozen; \$25.00 per hundred.

MONSIEUR JULES ELIE—Immense globular and very full flower, broad and overlapping petalage, forming one of the most perfect Peonies in existence; finest glossy flesh-pink, shading to deeper rose at base. The entire bloom covered with a silvery reflex or halo; quite fragrant; very rare; a magnificent variety from every standpoint. We had blooms the past spring twelve inches across. 75 cents each; \$5.00 per dozen; \$40.00 per hundred.

MONSIEUR KRELAGE—Deep currant-red with amaranthine center. The French growers evidently spilled their paint pot after producing this superb variety as there is nothing in Peonies of its color. Large, flat flowers as big as a plate, perfect in outline, grand in every way. \$3.00 per dozen; \$22.50 per hundred.

PRESIDENT ROOSEVELT—This grand new Peony originated in Holland, and was named in honor of the President as a compliment to this country—as an evidence of the friendly relations existing between the two countries, Holland and America. The color is one of the most distinct of the Chinensis type, a brilliant scarlet, bright and rich, a color almost unknown in the Peony. A very unique and attractive variety of high merit. Quantity limited. 50 cents each; \$4.00 per dozen; \$30.00 per hundred.

TREE PEONIES

This is a remarkable species, developed from Peony Mouton, a native of China and Japan. In habit of growth it is not unlike a deciduous shrub—the growths are short and stocky, the plant eventually attaining a height of four or more feet and of large circumference; the foliage is quite handsome, and the immense flowers, which usually appear some two weeks

ahead of the herbaceous class, are most remarkable for their immense size and gorgeous colorings. Splendid for grouping or for specimen plants on lawns. While a hardy plant, it will be found desirable to give it some protection in very cold latitudes. All shoots springing from the base should be rubbed off; any color you desire. 65 cents each; \$6.00 per dozen.

NEW FORCING HYDRANGEA

Arborescens Grandiflora Alba, or "Hills of Snow"

This shrub forces easily both for Easter and Decoration Day. This new Hydrangea is without question the grandest shrub or plant of any kind for forcing that is in existence today. This statement will admit of no controversy.

To show how easily it can be brought into flower, a neighbor florist, just starting in the business, without any previous knowledge on forcing plants, having never forced a single plant of any kind, potted 500 field plants the 20th of October, plunging them into a cold frame. Nine weeks before Easter part of them were brought in and kept at a night temperature of 40 to 45 degrees. During the day the temperature would run from 50 to 60 degrees. They were in full flower for Easter.

The balance of the plants were brought in the 20th of March and kept about the same temperature. The first bloom perfected the 12th of May, and the lot was in full bloom for Decoration Day and—What a sight! Enough to warm the cockles in the heart of any florist. Everyone who saw them could but wonder.

The plants on which the canes were allowed to remain, when brought in, threw out branches a foot to 15 inches in length with a bloom on every tip. On those that were cut back to within four inches of the pot, the eyes broke near the base of the plant, throwing up from five to eight canes three feet high, with blooms of the purest snow white that were a foot in diameter. The lasting qualities of its flowers are one of its great money making points; as the blooms last in perfect condition from two to three weeks.

The best flowers were produced from cut back plants, potted in heavy soil without a fertilizer. Where stimulants were used, the tendency was towards a weak neck that would not hold the mammoth bloom upright. It is imperative, to get the best results, that the plants should be subjected to hard freezing before bringing into the heat.

The Good & Reese Company:

Dear Sirs:—We notice your ad. in Florists' Review regarding *Hydrangea Arborescens Grandiflora Alba*. We forced six large tubs of this variety last Easter placing several plants in each tub. We were very successful in timing them; they had 25 to 30 heads of perfect flowers. The best asset this plant has, that we discovered, you do not mention in your adv. These plants kept in perfect shape, both foliage and flower, for eight weeks in our storeroom; not a leaf turned yellow. For store decoration during the spring months, nothing finer and more lasting than this plant. We give you this experience, seeing you are pushing the sale of this plant.

Very respectfully,

J. W. DUDLEY & SONS,
Parkersburg, W. Va.

Hydrangea Paniculata Grandiflora

A great favorite, and there is nothing finer or more showy, whether for planting in large masses in parks or for single plants on the smallest lawns. Blooms profusely from July until frost, in immense white panicles, tinted with pink and then with brown in the fully matured flower. The plant should be cut back each spring fully one-half of the past season's growth, as the flowers are much finer if the plant is treated in this manner. The flowers are much finer and larger if grown in a good, rich soil, but the plant is so hardy and easily grown that success is almost certain in any kind of soil and in any situation. One-year field-grown, 12 to 15 inches, \$1.25 per dozen; \$8.00 per hundred. Two-year field-grown, 18 to 24 inches, \$2.00 per dozen; \$15.00 per hundred. **HYDANGAEA PANICULATA** (Tree shaped.) Fine bushy heads on three to four foot stems. \$4.00 per dozen.

BEAUTIFUL FERNS

THE GRANDEST FERN OF THE AGE, NEPHROLEPIS "ROOSEVELT"

Fronds of Nephrolepis Roosevelt.

straggly, always making a shapely plant. 2 1/4-inch pots, 60 cents per dozen; \$4.00 per hundred; \$35.00 per thousand.

THE SPRINGFIELD FERN (Nephrolepis Springfield)

This grand Fern originated in Springfield, and more nearly resembles the variety Exaltata than any of the other Nephrolepis. Being of upright growth it is especially valuable for vase and window box work. It also makes a fine specimen in pots. 2 1/4-inch pots, 50 cents per dozen; \$3.50 per hundred; \$32.50 per thousand. 4-inch pots, \$2.50 per dozen; \$18.00 per hundred.

IMPORTANT—Some dealers say this Fern is no better than Harrisii. Roosevelt Fern will make a better plant in a six-inch pot than Harrisii will in a ten-inch pot, and that is what will make you the money every time.

It is our good fortune and great pleasure to offer this wonderful new Fern. In general characteristics it resembles the world famous Boston Fern, but it will sweep that Fern from the boards for two reasons; it produces many more fronds than the Boston, thus making a bushier, handsomer plant. In fact, it is the best Fern for florists' use ever introduced.

The usual size to sell the Boston Fern is from a six-inch pot. Well, let us tell you that in a six-inch pot of the Roosevelt and the Boston there is no comparison. The Roosevelt almost doubles the fronds of a Boston in a six-inch pot, thus making a much more finished plant, and therefore, more salable. The pinnae are beautifully undulated, giving the Roosevelt a pronounced wavy effect seen in no other Fern; as the plant ages this effect becomes quite distinct. Some dealers are attempting to lead the trade to believe that the Roosevelt Fern is similar or identical with the variety known as Harrisii, or the Harrisii type. This is positively incorrect, as a single plant of Roosevelt grown in a six-inch pot will produce more fronds than the others will in a ten-inch. The Roosevelt in a six-inch pot shows even more of the drooping habit than Boston, while the Harrisii is of upright growth. Then again, the number of well developed fronds in the Roosevelt are fully one-third greater in number, thus making a much more finished plant than any other Fern grown. Everybody will want this grand Fern. 2 1/4-inch pots, \$2.00 per dozen; \$15.00 per hundred; \$125.00 per thousand. 4-inch pots, \$4.00 per dozen; \$30.00 per hundred.

THE NEWPORT FERN (Nephrolepis Scottii.)

This Fern is all the rage at fashionable Newport. Identical with the Boston Fern, except it is smaller in all of its parts, and more compact, and will make more fronds in a given length of time. The fronds are lighter green than any of the Nephrolepis. The plants are never

Roosevelt.

BEAUTIFUL FERNS===Continued

The Ostrich Plume Fern (*Nephrolepis Whitmanii*)

A great Fern. In fact, it is a plant that appeals to everyone, and on that account will prove a much more valuable and profitable plant than the Boston Fern, which has had the most phenomenal sale of any decorative plant that has ever been grown, but which cannot be compared to the Ostrich Fern for beauty and general effectiveness. Everyone who has seen it is charmed with it. As someone has expressed it, "There is nothing like the Ostrich Plume Fern in cultivation. In decorative effect it so far out-distances the original variety that there is positively no comparison to be made." We consider it the most valuable novelty that has been introduced in many, many years. 2 1/4-inch pots, 50 cents per dozen; \$3.50 per hundred; \$32.50 per thousand. 4-inch pots, \$2.50 per dozen; \$18.00 per hundred.

The Ostrich Plume Fern.

Philadelphia Lace Fern (*Nephrolepis Elegantissima Improved*)

This without question stands in a class by itself among Ferns. It belongs to the true Ostrich Plume type of Fern, and has this decided advantage over the others of never reverting to the Boston type. Its fronds are long, graceful and airy, resembling delicate lace. A most remarkable variety, a perfect jewel amongst Ferns. Do not fail to get this. 2 1/4-inch pots, \$1.00 per dozen; \$8.00 per hundred; \$75.00 per thousand. 3-inch pots, \$2.00 per dozen; \$15.00 per hundred.

New Fern "Baby's Breath."

The New Crested Fern (*Nephrolepis Scholzei*)

This is the great Crested Fern that has set all the Fern lovers to talking. Everyone admires it and sings its praises. The growth is bushy and compact, each pinna is crested, giving it a distinct and unique appearance. This Fern is a model of beauty. 2 1/4-inch pots, 60 cents per dozen; \$4.00 per hundred; \$35.00 per thousand.

The Fluffy Ruffles Fern (*Nephrolepis Superbissima*)

This new Fern is quite different from all other Ferns. Its distinguishing characteristics are its dark green foliage, darker than any other Fern, its dense growth being much more compact, and its irregular shaped fronds which gives it the name of "Fluffy Ruffles Fern." The fronds are very heavily imbricated, the pinnae overlapping, and are so formed as to resemble miniature Ferns, giving it the appearance of a Fern within a Fern. The plant is very sturdy in its habit and the fronds firm and rigid, never break down, so that it will stand more knocking around than any other Fern. The possessor of this new Fern has a distinct and different plant from all the other Ferns. It is a plant that needs to be seen to have its great value and sterling qualities appreciated. 2 1/4-inch pots, 75 cents per dozen; \$5.00 per hundred; \$45.00 per thousand. 3-inch pots, \$1.50 per dozen; \$10.00 per hundred. 4-inch pots, \$3.00 per dozen, \$20.00 per hundred.

The Wonderful New Fern Baby's Breath

(*Nephrolepis Goodii*)

This has the finest foliage of all the Ferns. It is so delicate that a lady on seeing it exclaimed, "Call it the Baby's Breath Fern, as it is so dainty in texture that a baby's breath would set its fluffy foliage in motion." It gives the impression of fine lace work, and has been named in the East the Philadelphia Lace Fern. It is a much finer Fern than *Nephrolepis Amerpohlii*. Whatever name you call it by, it is a beauty. Our reputation for it that no Fern in existence can compare with it in fluffiness. 2 1/4-inch pots, \$1.00 per dozen; \$6.50 per hundred; \$60.00 per thousand.

The Tarrytown Fern (*Nephrolepis Piersoni*)

An entirely new form of the Boston Fern. The pinnae subdivide, making miniature fronds which are superimposed on the main fronds, looking as if two or even three were condensed in one, giving the plant a graceful, feathery and plummy effect. 2 1/4-inch pots, 50 cents per dozen; \$3.50 per hundred; \$32.50 per thousand.

The Old Original Sword Fern

(*Nephrolepis Exaltata*)

This is the parent Sword Fern from which all the *Nephrolepis* in commerce sprung. The fronds are narrow, and grow upright, making it a most useful variety on this account for centers of vases, for which purposes it is used by the florists by the thousand. 2 1/4-inch pots, 50 cents per dozen; \$3.50 per hundred; \$32.50 per thousand.

Boston or Fountain Fern.

The Silver Fern (Pteris Argyrea)

This is called the Silver Fern from the broad line of silvery-white that runs through each frond. A most beautiful Fern. 2 1/4-inch pots, 60 cents per dozen; \$4.00 per hundred.

Dwarf Ferns for Fern Dishes

These dwarf Ferns are used by the hundreds of thousands to fill dishes for table decorations. Our sales each year exceed fifty thousand plants. Our stock is in prime condition, ready to use at once. We offer six choice varieties. 50 cents per dozen; \$3.50 per hundred; \$32.50 per thousand.

Japanese Fern Balls

Each ball is composed of dormant Japanese Fern roots and moss, so put together that they send out beautiful fronds from every point, until the ball becomes a mass of green. The foliage is delicate and lace-like, as well as of splendid substance. To start them growing soak the ball in tepid water for half an hour and hang up in a warm place. They need no earth, dish or pot. Simply soak them and hang them up. Repeat the watering before they get dry every day or oftener, if necessary. Each, 50 cents; \$4.50 per dozen.

Boston or Fountain Fern

(Nephrolepis Exaltata Bostoniensis)
In the vicinity of Boston no other plant is so extensively used as this graceful Nephrolepis, which differs from the ordinary Sword Fern in having much longer fronds, which frequently attain a length of six feet. These arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. This Fern should not be compared to the Ostrich Plume Fern, as they are of an entirely different growth; both have their place and both are beautiful and desirable. 2 1/4-inch pots, 50 cents per dozen; \$3.50 per 100; \$32.00 per 1,000. 3-inch pots, \$1.00 per doz.; \$7 per 100. 4-inch pots, \$2.50 per doz.; \$18 per 100.

The London Fern (Nephrolepis Todeaoides)

This is after the style of Whitmanii, belonging to the Ostrich Plume type of Nephrolepis. It is claimed by its introducers that it does not run back so badly as Whitmanii. We believe it to be somewhat of a stronger grower. Certainly a fine Fern. 2 1/4-inch pots, 60 cents per dozen; \$4.00 per hundred; \$35.00 per 1,000. 4-inch pots, \$2.50 per dozen; \$18.00 per 100.

The Shaking Fern (Pteris Tremula)

The foliage of this variety is fine and graceful, and is much sought after. It grows rapidly and soon makes a handsome plant. 2 1/4-inch pots, 50 cents per dozen; \$3.50 per hundred.

Aloysia Citriodora

Lemon Verbena—This plant has the most fragrant foliage of any plant grown. The fragrance is that of the Lemon. One plant will scent a whole yard. Grows rapidly. Exquisite. Price, 40 cents per dozen; \$3.00 per hundred.

Araucaria Excelsa

Norfolk Island Pine—Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the "Christmas Tree Palm," from its resemblance to a Christmas tree; others have called it the "Star Palm," because the leaves are arranged to form a perfect star. But no descriptive name can give an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances. Its symmetry of form, grace and beauty of foliage are unequaled in the vegetable kingdom. It is easily grown in the house, and is highly ornamental. It requires the same culture as the Palm. Price, twenty to twenty-four inches high, three to four tiers of leaves, \$1.00 each; \$10.00 per dozen.

Ageratums

PRINCESS PAULINE—A novel new variety of dwarf, compact habit, rarely exceeding eight inches in height. Its peculiarity consists of both blue and white being combined in the same flower, the body of the flower being white, while the stamens, forming an outer ring, are sky-blue, giving the flower a pretty variegated appearance.

STELLA GURNEY—It is a decided improvement in color, being the deepest blue yet introduced, and is exceptionally free flowering, not only in summer, but the year round.

Price, 2½-inch Pots, Except Where Noted, 50 Cents Per Dozen;
\$3.50 Per Hundred

Begonias are fine to plant on the north side of the house or other building, or in front of porch where they get shade. The foliage, as well as the flowers, are extremely ornamental, some being spotted and veined to give a parti-colored effect that is quite striking. Begonias planted with Crotons give a wonderful foliage effect, and this is heightened with their lovely showy flowers.

ALBA PICTA—Long, pointed, slender leaves, thickly spotted with silvery-white. Foliage small and elegant.

ALBA PERFECTA GRANDIFLORA—We doubt if there is a white-flowered variety that equals it. The foliage resembles Rubra in shape, but it is lighter green, while the flower panicles are much handsomer. It is a pure white flowering Begonia of much merit.

ARGENTEA GUTTATA—It has purple-bronze leaves, oblong in shape, with silvery markings, and is in every way a most beautiful Begonia. Produces white flowers in bunches on ends of growth stems. Good for house culture.

The Wonderful New Flowering Begonia CORALLINE LUCERNE—This new Begonia has simply taken everybody who has seen it by storm. There was not a single lady or florist who visited our greenhouses the past spring that did not purchase this Begonia after they had seen it in flower. It certainly is a wonder. The blooms last from a month to six weeks, and are borne in immense clusters almost hiding the plant. The color is bright coral-red, changing to a delicate pink. It is past the power of speech to describe it. A wonder. Fine plants, 25 cents each; \$2.50 per dozen; \$18.00 per hundred; \$150.00 per thousand. 3-inch pots, \$3.00 per dozen; \$20.00 per hundred. 4-inch pots, \$4.00 per dozen; \$25.00 per hundred.
